the four volume set Inai 6881 Inai 6884 constitutes the refereed proceedings of the 15th international conference on knowledge based intelligent information and engineering systems kes 2011 held in kaiserslautern germany in september 2011 part 4 the total of 244 high quality papers presented were carefully reviewed and selected from numerous submissions the 46 papers of part 4 are organized in topical sections on human activity support in knowledge society knowledge based interface systems model based computing for innovative engineering document analysis and knowledge science immunity based systems natural language visualisation advances in theory and application of hybrid intelligent systems

many textbooks on differential equations are written to be interesting to the teacher rather than the student introduction to differential equations with dynamical systems is directed toward students this concise and up to date textbook addresses the challenges that undergraduate mathematics engineering and science students experience during a first course on differential equations and while covering all the standard parts of the subject the book emphasizes linear constant coefficient equations and

applications including the topics essential to engineering students stephen campbell and richard haberman using carefully worded derivations elementary explanations and examples exercises and figures rather than theorems and proofs have written a book that makes learning and teaching differential equations easier and more relevant the book also presents elementary dynamical systems in a unique and flexible way that is suitable for all courses regardless of length
